

# Schindler Penthouse Package

Direct and easy access

# Schindler Penthouse Package

## More privacy and customised access

Our Penthouse Package adds convenience and quality of life to any penthouse apartment.

The higher level of comfort and security will give tenants and their visitors direct access to the penthouse floor.

With the penthouse package tenants always have full access control. Thanks to the key switch in the elevator, they can enter their home safely and discreetly.

### Your benefits at a glance

- Tenants control the elevator safely to and from the penthouse apartment
- Privacy is ensured as the elevator controller is located outside of the apartment

#### The package includes:

##### Key switch access

- Only tenants can take the elevator directly to the penthouse apartment. They just need to insert their apartment key into the lock on the car control panel and travel directly up to the floor. The elevator will not reach the floor without a key.

##### Control cabinet placement for maximum privacy

- The control cabinet is placed on a freely accessible floor. This enables our service technicians to access the elevator at any time without disturbing the tenants. The elevator control panel is placed on the floor, ensuring that maintenance work does not interfere with tenants' privacy.

##### Emergency key access

- For emergencies, the penthouse package includes a key safe, which is located outside of the building, providing after hours emergency access.
