

Lift Protective Covers

When asset protection is important, Schindler has you covered.

Lift protective covers safeguard your lift car walls from damage, preserving both the appearance and life of the elevator interior. Schindler's protective covers are custom-made and help avoid costly repairs due to damage caused during moving, renovating or transporting bulky goods.

Our protective canvas covers are best suited for temporary use and can be folded away for storage when they are not required. are custom-made to your specifications.

Each set of protective covers features a hanging system consisting of site installed grommets or specially designed adjustable hanging clamps.

Benefits

Installing lift protective covers will help to:

- Safeguard the appearance and life of your lift interior
- Improve passenger safety
- Increase your peace of mind.
